Of course, safety is our #1 priority! We have been working hard to make our school building safe and sanitized and to keep all the humans that enter the building healthy. Our school nurse speaks with the health department weekly and the administrative and maintenance teams are keeping up-to-date on the latest recommendations and requirements from the Ohio Department of Education and health, as well as, the state and the county officials.

*All we need now is more scholars in our building!*

I believe our teachers, scholars and families have worked hard to make the virtual learning experience successful. However, nothing compares to your scholar being in the classroom. As we get closer to getting back to a more normal school setting, I would like to hear your thoughts on the topic.

- Would you like to see school fully re-opened this school year?
- What are your biggest concerns about sending your scholar back to the school building?
- How many days a week would you like your scholar to be in school?
- Would you prefer full days or shortened days as we have now?
